### WASHINGTON LETTER.

Washington, D. C., Aug. 7.—Politics in Washington for the past week have been seething, a fit compliment to the weather. Not in recent years has there been witnessed a more dramatic scene than when Oscar W. Underwood, chairman of the Ways and Means Committee, rose to a question of personal privilege to reply to the attack of William Jennings Bryan, who alleged in a recent editorial in the Commonwealth, that Underwood had deflected consideration of the iron and steel schedule, for the reason that he had a selfish interest to defend. The response of the floor leader from Alabama has more bristling courage in it than any other democrat for many years has had the temerity to disclose in the face of opposition by the erstwhile Nebraska leader. Mr. Underwood not only denounced Bryan's allegations as false but proved it by his own friends in the House.

It was a theme of common remark the wonderful contrast between the attitude of the democrats of the House just now under the leadership of Underwood and three years ago when Bryan was assured of a third nomination for President by the democrats. Then, notwithstanding he was known to entertain just such views as he harbors now, there was no democrat who was bold enough to take issue with him. The dauntless way in which Underwood met his aspersions was for the Alabamian so remarkable and emphatic a tribute of general approbation as places him in the forefront of factorship for the democratic nomination next year. Undoubtedly Underwood's conduct of tariff consideration and legislation from the democratic standpoint has gained him many new friends and commanded the respect and admiration of his political adversaries whose good will he has secured by his uniform courtesy and fairness.

The climax of courtesy and official hospitality to the foremost actor for Nippon in the Russo-Japanese War, Admiral Count Hsihachiro Togo was reached in this city when President Taft received the famous visitor on Saturday evening last, giving an official dinner in his honor, later followed by a reception which was largely attended by Representatives from the official diplomatic and residential sets. No proper thoughtful attention will be omitted during Admiral Togo's stay in the United States to disprove the baleful gossip that has occurred from time to time intimating hostile sentiments between Japan and this nation. The Nelson of Japan will be cheerfully accorded the privilege of visiting our navy yards and shops. He may see all that he cares to see about our navy, and it is believed that nothing could more effectually convince the Orientals of the friendly professions of our people for them.

The passage by the Senate of the Congressional apportionment bill increasing the size of the House from 391 to 433 members, with the admission by that time of Arizona and New Mexico as states, adding four Senators, will make an electoral college numbering 529 with 269 votes necessary to a choice.

### BRISTOL VIRGINIA TO HAVE POSTOFFICE.

Washington, D. C., Aug. 4.—The Postoffice Department has decided at last to establish a postoffice at Bristol, Va., in addition to the office which has been located in the border line city on the Tennessee side of the boundary.

Congressman Slem, of the Ninth Virginia District, has insisted upon the right of the Virginia portion of the city to have its own postoffice and postmaster until the department has determined to establish a fourth class office at Bristol, Va., and let Mr. Slem name the postmaster. The result will be the city will have two postoffices, one in each of the States in which the city is located, and the compensation of the present postmaster of Bristol, Tenn., will be reduced according to the amount of business diverted from his office by the establishment of the new office.

pyrites, and malachite, matte, copper and copper ignots. The acid produced by the Tennessee Copper Co. will be displayed, as well as slag. Copper granulated slag will be shown as a road builder. By accident it was discovered that an application of salt would cement copper slag. A large amount of slag was sent to the office of public roads, Department of Agriculture, at Washington, and after many tests they have about succeeded in making a perfect binder for highways. The Tennessee Copper Co. will have a large working model of its Burra Burra copper mines.

### TEN CENTS THE LIMIT

The United States Senate has enacted drastic legislation to prevent corruption in Senatorial and Congressional elections, which embraces the following important features:

"No candidate for the Senate or House shall spend in the election more than a sum equal to ten cents for each voter in his district or state. No senatorial candidate shall spend a total of more than \$10,000 in the primary and general election, and no candidate for the House shall spend more than \$5,000.

"Publicity must be given to all primary campaign contributions and expenditures. "All promise of political jobs must be made public. The bill further makes it illegal to promise political places in order to secure election support, or to aid in influencing the election of any member of a State Legislature."

## "MEMORIES"

You have heard the expression, "I would give all I possess for a picture of my child." That remark was made by some one who had neglected their opportunity and after it was too late saw their error. Don't put such things off. If you have a family or a child of whom you are very fond, have their pictures taken. Don't leave it for tomorrow, for tomorrow may never come. Do it now while there is health and strength, while the family circle is unbroken.
